

Kathmandu to Lukla by helicopter - 1 Days

Kathmandu to Lukla by helicopter

The Kathmandu to Lukla by helicopter is an unforgettable experience that combines the thrill of aviation with the natural beauty of the Himalayas. The helicopter journey offers stunning views of the Mount Everest and other towering peaks, as you fly over the rugged terrain of the Khumbu region. The flight typically takes around 30 minutes to approach Lukla airport.

Flying to Lukla (2860 m) from Kathmandu by helicopter is a convenient and scenic way to reach the Everest region quickly. It is suitable for the travelers who have limited time or prefer to avoid the challenging and time-consuming Kathmandu – Lukla flight or vice versa.

We offer helicopter flight to Lukla on both the private charter basis and group joining. Most of the helicopters can accommodate up to 5 persons per flight. So, group joining flight can be more economical option, as the total cost of the charter flight is share with the total number of people flying at a time. Therefore, the cost of the helicopter flight is flexible and also reasonable.

It's important to note that, helicopters have limited space for luggage. So, pack efficiently and follow the weight restrictions provided by the helicopter operator.

Everest base camp helicopter tour, Annapurna base camp helicopter tour, and Gosaikunda helicopter tour are the most popular helicopter tour in Nepal.
