

Mountain flight by helicopter - 1 Days

Mountain flight by helicopter

The Mountain flights by helicopter offer a thrilling and unique to the experience the beauty of mountainous regions, including exploring remote areas, breathtaking views, and participating in adventure. The flight provides an opportunity to witness the stunning landscapes from a bird's –eye view. This can include soaring over snow- capped peaks, dense forests, deep valleys, lakes, and glaciers.

The flight departs from Kathmandu early in the morning so you can catch the breathtaking sunrise over the mountains. The flight is only about an hour long but as you fly, you will see some of the most iconic mountains in the world including Mount Everest, Mount Annapurna, Mount Dhaulagiri, Mount Lhotse, Mount Makalu and many other peaks.

The helicopter mountain flight can be particularly useful for mountaineers, adventure enthusiasts, researchers, and as well as photographers and videographers. The journey offers a chance to capture incredible shots from unique angles.

Keep in mind that, helicopter flights are highly weather- dependent. That's why, poor weather conditions such as heavy rain, fog, and strong winds can lead to cancellations or delays. It's beneficial to have some flexibility in your schedule when planning a mountain flight by helicopter.
